TROTSKY ABANDONS HOPE OF PEACE ON RUSSIA'S TERMS

Majority of the Soviet Favors the Rejection of Proposals From Germans.

PETROGRAD, Jan. 30 (United Press).—Russia's Pan-Soviet Congress, the voice of the people, will reject Germany's peace, as offered at Brest-Litovsk, according to every indication today.

There is a division of opinion among the Soviet delegates, but the majority, including the extremists or Social Revolutionaries of the Left, favor such a course, to be followed by "use of the power of the revolution against German Imperialism."

Speaking in the Soviet Assembly Monday night, Foreign Minister Trotsky declared he had abandoned all hope of a just peace agreement.

"There is no hope of a non-annexationist peace," he said. "Only a compromise is possible. I cannot promise we will not conclude a separate peace. We will declare at Brest-Litovsk that the world considers the German terms murderous. We hope Western Europe will not blame Russia if she is forced into a separate peace."

Following Trotsky's pessimistic speech, the Congress adopted resolutions assailing the German peace terms and approving the course of the Bolshevik delegates at Brest-Litovsk. This delegation was given a free hand in any future negotiations.

Members of the Russian committee at Brest-Litovsk announced today they had formally asked permission of Austro-Hungarian Foreign Minister Czernin to visit Vienna and confer with Austrian workers. No reply has been received.

AMSTERDAM, Jan. 30.—German Foreign Minister Kuhlmann and Austro-Hungarian Foreign Minister Czernin arrived at Brest-Litovsk on Monday, according to Berlin advices today. Despatches quoted Czernin as declaring prior to his departure from Berlin that he "might soon return to Vienna on very important State business."

JOHN REED, INDICTED HERE, NAMED TO BOLSHEVIK POST

Writer on Staff of Masses Appointed Consul-General for New York—Now in Russia.

LONDON, Jan. 30.—Michael M. Oustinnoff, the Russian Consul General in New York, has been dismissed, according to a Russian wireless official statement received here. John Reed has been appointed to succeed Oustinnoff.

The John Reed referred to probably is the American newspaper man and socialist. He has been in Russia since last November.

Reed was one of the seven members of the staff of the Masses, of which Max Eastman was editor, who were indicted on Nov. 21 by the Federal Grand Jury here under the Espionage Act. The other six were arrested on bench warrants, but Reed's absence in Russia prevented the arrest of the seventh upon him. Eastman and his associates are now out on bail awaiting trial.

Reed was a character witness for Emma Goldman, the anarchist, when she was convicted here on a charge of conspiracy to obstruct the military law of the country.

Mr. Oustinnoff said today that he had received no official notification of his dismissal. He was never recognized by the Bolsheviks.

It was pointed out that if Mr. Reed becomes Russian Consul General, his authority would be considerable. The United States recognized the Provisional Government, but it has not recognized the Bolsheviks.

\$10,000,000 FUND ASKED TO TRAIN MAIMED FIGHTERS

Vocational Education Board Estimates to Senate 20,000 Will Need Assistance First Year.

WASHINGTON, Jan. 30.—Comprehensive plans for the vocational re-education of disabled soldiers and sailors as well as civilians employed by private firms were outlined in a report to the Senate today from the Federal Board for vocational training. An appropriation of \$10,000,000 was asked.

The board estimates that in the first year after the American Armies participate on the battle front 100,000 men will be disabled, of whom 20,000 will require total or partial vocational re-education. For the second year 40,000 are estimated and for the third year 20,000. This estimate, the board says, is based on the supposition that there will be 100,000 men sent to Europe during the first year.

NEW REPUBLIC IS ORGANIZED BY FINNISH REBELS

Stockholm Notified the Lives of 400,000 Swedes in Finland Are in Danger.

STOCKHOLM, Jan. 30.—The Finnish revolutionaries have formed a government under the presidency of Kullervo Manner, according to a telegram from Helsinki dated Tuesday. The members of the Finnish Senate were not molested by the revolutionaries.

The Finnish Government has notified Sweden that it cannot be responsible for the lives of Swedish subjects, of whom there are about 400,000 in Finland. Reports from Helsinki are contradictory but they indicate that the rumor that the Swedish Minister had fled is incorrect.

All of Southern Finland as far as Tammerfors is reported to be in the hands of the Red Guards, but the Government troops have vanquished the Red Guards at various places in Northern Finland.

The general strike continues at Helsinki and the Socialists are reported to have made common cause with the revolutionaries. The Socialists have issued a proclamation accusing the Government of attempting to organize an armed force to crush the Finnish proletariat.

The Finnish Legation announced today that a delegation was en route from Helsinki to ask Sweden's assistance against the revolutionaries. It was pointed out here that such assistance could only be of a military nature.

REDS IN RUSSIA THREATEN FRANCIS OVER BERKMAN

Hold Envoy "Personally Responsible for Freedom" of New York Anarchist.

By Joseph Shaplen.

PETROGRAD, Jan. 30 (United Press).—An ultimatum declaring the American Ambassador "would be held personally responsible for the life and liberty of Alexander Berkman" was forwarded yesterday to David R. Francis by an Anarchist group of sailors and workmen.

The Russian terrorists have been deeply interested in the prosecution in the United States of Berkman and Emma Goldman for conspiracy to defraud the conscription law.

Coincidentally with news of this action from Helsinki came word of Bolshevik successes in putting down the revolution in Finland. The Petrograd Agency quoted Foreign Minister Trotsky as writing the Finnish Senate stating he favored withdrawal of Russian troops from Finland. Trotsky asserted that counter-revolutionaries in Finland had attacked the Bolshevik Red Guards, forcing the latter to defend themselves.

Alexander Berkman for years has been a leading exponent in the United States of anarchy and "direct action" methods. On Monday last the United States Supreme Court upheld his conviction and a prison sentence for conspiracy to defraud the Selective Service Law; also that of Emma Goldman.

There is a sharp distinction between Anarchists and the Bolsheviks.
